SKILLS

- **Programming & Scripting:** JavaScript
- **Frontend:** HTML, CSS, JavaScript,TypeScript, React, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js
- **Database**: MongoDB
- **Tools & Platforms**: Git, GitHub, VS Code
- **Operating System:** Linux (Ubuntu)

WORK EXPERIENCE

Satya Statellite IT Solution

Frontend Developer(intern)   Jan 2024 - April 2024

- During the internship at Satya Statellite IT Solution jaipur , I gained practicle exprience in front-end development using HTML, CSS, Tailwindcss, JavaScript My responsibilities included desiging interfaces
- Developed a responsive UI for the Home Lead project using React.js with Tailwind, improving page load speed.
- Built 10+ reusable components, optimizing development efficiency and reducing redundant code.
- Implemented dynamic search filters and property listings, boosting user retention.
- Ensured mobile responsiveness, achieving a Lighthouse performance

PROJECTS

Course Hub ⬈   July 2025 - AUG 2025
- Implemented a MERN stack architecture with MongoDB, Express, React with Tailwind, and Node.js.
- Developed a course hub platform using the MERN stack with Tailwind CSS, enabling course browsing, purchasing, and management.
- Implemented secure authentication and authorization with JWT and role-based access, ensuring data privacy and restricted admin access.
- Integrated online payment gateway, transactions, and enhanced user trust with real-time confirmation.
- Built an admin dashboard for efficient CRUD operations, improving overall platform monitoring.
- **visit my portfolio**:https://bablooportfolio.netlify.app

Video Library ⬈   June 2025 - JUL 2025
- Built a Video Library application using the MERN stack for managing and streaming video content.
- Implemented a MERN stack architecture with MongoDB, Express, React, and Node.js, utilizing TypeScript for enhanced functionality.
- Developed a Video library app using the MERN stack with Bootstrap, enabling video browsing, saving videos to watch later, and ensuring mobile responsiveness.
- Built an admin dashboard to perform CRUD operations, improving overall platform monitoring and management.

EDUCATION

Vivekananda Global University – Jaipur

Master of Computer Application - 8   June 2022 - July 2024

AWARD

National-Level Project Exhibition Participant VGU, Jaipur
- howcased real-world application of full-stack development skills
- Enhanced skills in presentation, teamwork, and technical communication
